PROFESSIONAL SUMMARY

Junior frontend developer who builds and ships responsive web applications from requirements through deployment. Recent work includes a production React/Supabase application and a paid Next.js/TypeScript internship. Practical experience includes APIs, authentication, databases, payments, testing, debugging, responsive design, technical writing, teaching, and small-business ownership.

TECHNICAL SKILLS

JavaScript | TypeScript | React | Next.js | HTML5 | CSS3 | Tailwind CSS | React Router | Redux Toolkit
REST APIs | Axios | Supabase | PostgreSQL | Firebase | Firestore | Stripe
Git | GitHub | Vercel | Vite | Figma | Responsive Design | Accessibility | Functional Testing

SELECTED DEVELOPMENT PROJECTS

PawCircle Membership

React / Supabase / Stripe

- Identified the need for a direct local pet-care membership product, mapped the core user flows, and built and launched a responsive React application with Supabase/PostgreSQL, Stripe, and Vercel.
- Implemented authentication, role-based profiles, protected directories, messaging, privacy controls, and payment workflows; tested failures across the interface, data layer, and third-party services and verified fixes before release.

Skinstric - Paid Frontend Internship

Next.js / TypeScript

- Turned supplied Figma designs and API requirements into a responsive skin-analysis flow with validated intake, camera/gallery capture, Base64 conversion, browser permissions, editable results, responsive testing, and Vercel deployment.

Ultraverse NFT Marketplace

React / API Project

- Built reusable API-driven marketplace views with loading skeletons, responsive carousels, countdown timers, sorting/filtering, incremental loading, and React Router navigation for a complete responsive browsing experience.

Summarist

Next.js / Firebase Project

- Completed a multi-route book-summary application with Firebase Authentication, Firestore persistence, Redux Toolkit state, debounced search, protected and premium states, dynamic routes, and an audio player.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern - Skinstric

2026

- Completed a paid frontend internship by carrying Skinstric from supplied requirements and designs through implementation, Git/GitHub workflow, testing, debugging, and deployment.

Founder & Owner - PawCircle LLC

2023-Present

- Run an independent service business with approximately 95% repeat business, managing client communication, scheduling, changing requirements, and day-to-day problem solving.

Earlier Professional Experience

- Eleven years as a science educator plus earlier technical writing/document control and Tier 1 internet support built strong documentation, training, communication, and technical troubleshooting skills.

EDUCATION

Frontend Simplified | Frontend Development Program - Completed 2026

B.S., Elementary Education, Summa Cum Laude - St. Cloud State University

M.S., Women's Studies; B.S., Sociology & Women's Studies - Minnesota State University, Mankato
